OBJECTIVE

Java Full-Stack Developer | Frontend & Backend Enthusiast with strong knowledge of Java, React.js, SQL, and Spring Boot. Passionate about building scalable, user-friendly applications and eager to contribute to dynamic IT teams while continuously learning emerging technologies.

SKILLS

- **Programming & Backend:** Java, My SQL, Spring Boot, Rest API, JDBC, Servlets, JSP.
- **Frontend:** HTML5, CSS3, JavaScript
- **Tools:** Git, GitHub, Maven, VS Code, Eclipse

EDUCATION

B.TECH

Jawaharlal Nehru Technological University Anantapur

2021-2025

Mechanical Engineering

CGPA - 7.44

PROJECTS

Portfolio URL - <https://dineshyadav111.github.io/Portfolio/>

- Created a stylish and functional portfolio website using HTML, CSS, JavaScript and React JS with responsive design and interactive features.

Employee Management System – Full Stack Project

- Built a CRUD web application using Spring Boot (Java), React JS, and MySQL for managing employee records.
- Designed RESTful APIs, implemented MVC architecture, and integrated frontend and backend for seamless data operations.

Banking Application System

- Developed a RESTful Banking App with Spring Boot 3, Spring Data JPA, and MySQL—implementing secure CRUD operations (account creation, deposit, withdrawal, deletion) with layered architecture (DTO, entity, service, repository, controller).
- Ensured robust exception handling, seamless MySQL integration, and endpoint validation using Postman.

Experience

IBM Summer Internship — Frontend Developer Intern (2024)

- Built a responsive e-commerce website using **HTML, CSS, JavaScript**
- Improved UI/UX with responsive layouts and interactive feature
- Gained experience in collaborative project development

CERTIFICATIONS

- I have achieved the **IBM SkillsBuild Internship Learning Plan** certificate.
