OBJECTIVE

Java Full-Stack Developer | Frontend & Backend Enthusiast with strong knowledge of Java, React.js, SQL, and Spring Boot. Passionate about building scalable, user-friendly applications and eager to contribute to dynamic IT teams while continuously learning emerging technologies.

SKILLS

- **Programming & Backend:** Java, JDBC, Servlets, JSP, Spring Boot, SQL, Rest API.
- **Frontend:** HTML5, CSS3, JavaScript, React.js
- **Tools:** Git, GitHub, VS Code, Eclipse

EDUCATION

B.TECH

Jawaharlal Nehru Technological University Anantapur	2021-2025
Mechanical Engineering	CGPA - 7.44
Narayana Junior College, Kurnool, Board of Intermediate Education AP	2019-2021
Intermediate MPC	CGPA – 8.07
Sri Chaitanya Techno School, Kurnool, Board of Secondary Education AP	2018-2019
SSC High School	CGPA – 8.5

PROJECTS

Portfolio URL - https://dineshyadav111.github.io/portfolio_1/

- Created a stylish and functional portfolio website using HTML, CSS, and JavaScript with responsive design and interactive features.

College Fest – Dynamic (WebSite) URL - <https://intuaceamech.in/>

- I designed a website for my department fest to showcase the department and provide information about the events being conducted. The website also displays the college's address. I built it using HTML, CSS, and JavaScript, with the help of ChatGPT.

User Management System

- Developed a dynamic web-based User Management System using **JDBC, Servlets, and JSP** following the **MVC architecture**. The application enables administrators to perform full CRUD operations (Create, Read, Update, Delete) on user data with real-time database connectivity using **MySQL**. Implemented features such as user registration, login authentication, session management, and role-based access control. Ensured clean separation of concerns with reusable components and effective use of JavaBeans, JSP for presentation, Servlets for controller logic, and JDBC for data handling.

Experience

IBM Summer Internship — Frontend Developer Intern (2024)

- Built a responsive e-commerce website using **HTML, CSS, JavaScript**
- Improved UI/UX with responsive layouts and interactive feature
- Gained experience in collaborative project development

CERTIFICATIONS

- I have achieved the **IBM SkillsBuild Internship Learning Plan** certificate.
